Spend Less. Waste Less.

Kyocera's objective is to manufacture superior products with the lowest Total Cost of Ownership (TCO), and have little or no impact on the environment. Kyocera's ECOSYS® Technology provides customers with a printing solution that incorporates life-long consumables and the lowest cost per print.

The operating costs of traditional cartridge-based page printers can easily exceed more than three times the original purchase price during the life of the product. By utilizing Kyocera's proprietary ECOSYS® technology, a user can typically recoup a printer's purchase price in one year or less.
